

Florida Youth Soccer Association encourages all players to try out through our program. We continue to strive to make this program the finest in the country.

We will have trials for the 98-99 age groups in the Fall of 2011. Players are eligible to attend one of the four sites listed. Dates and sites are below.

For information in regards to the program description, philosophy and application you can go to www.fysa.com under ODP.

The main goal of the Florida Youth Soccer Association Olympic Developmental Program is to identify players for our men's and women's Youth National Teams. The selection process takes place through state, regional and national trials. The program also factors into the college recruiting process.

The primary benefit to the player is to be able to try out, train, and play against the best players in their age group. This allows the best players to be with the best in order to further their development as soccer players.

Our State Staff is comprised of professional, college, high school, and club coaches. All of these coaches are nationally licensed by US Soccer. It is the goal of our staff to conduct these trials in a fair and impartial manner.

Sept.	24-25	ODP Region Trial	Sarasota
Oct.	15-16	ODP Region Trial	Region A TBA
Oct.	22-23	ODP Region Trial	Gainesville
Oct.	29-30	ODP Region Trial	Auburndale

Note: Players are eligible to attend trials at any location not just their own region. There will be additional information sent to players located in Region D in regards to events in your area.

For any questions you can reach either Jaime Garzon, jgarzon@fysa.com or Michael Strickler, mstrickler@fysa.com.

The ODP trials for players born in 1995, 1996, and 1997 are in the Spring. The information and application will be posted on the FYSA website at <http://www.fysa.com/> under ODP. The information will be posted later this year.
